Emergent Readers

Early World of Learning

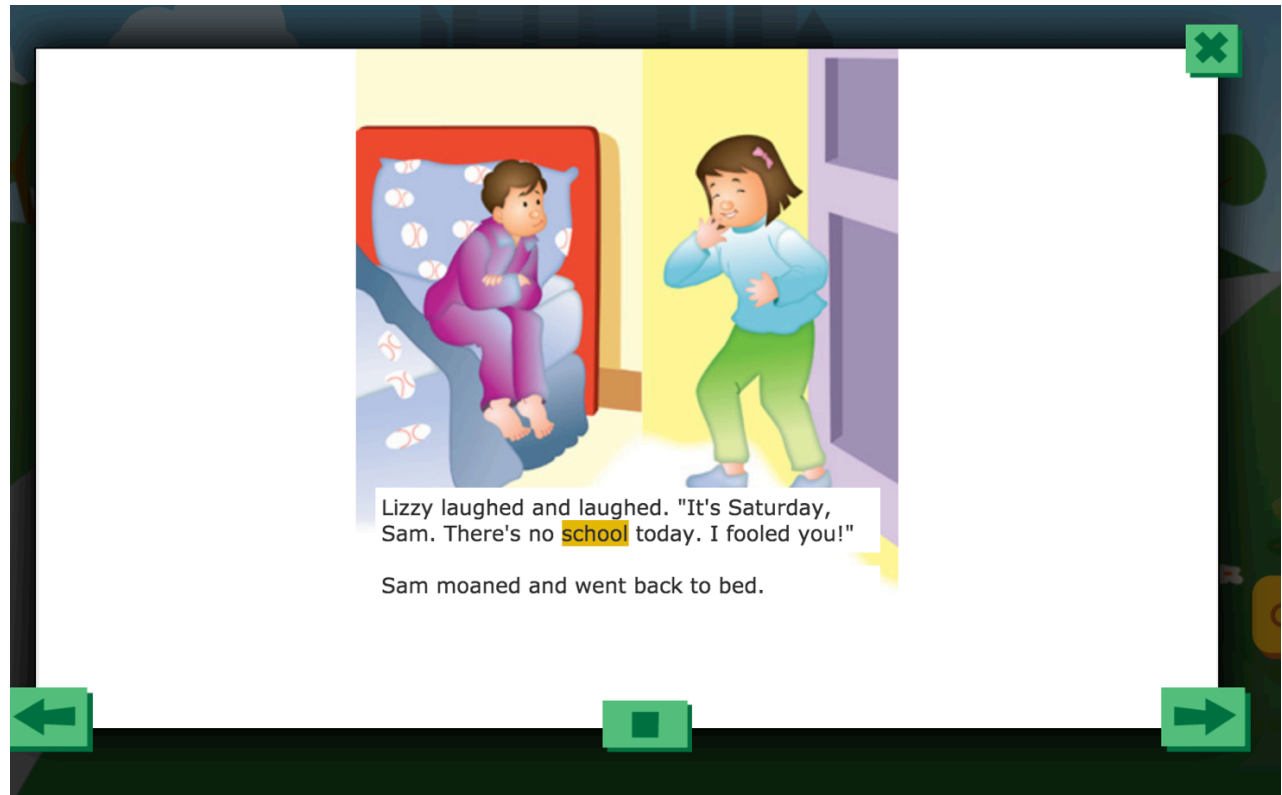

Emergent learners will engage in an interactive and playful environment that encourages reading comprehension and mastery of phonetic skills.

The **Welcome to Reading** program includes 48 stories spread across four progressive Lexile levels to provide the building blocks of success for early readers.

The screenshot displays the 'Welcome to Reading' interface on the World Book Early World Learning platform. At the top left, the 'WORLD BOOK' logo and 'Early World Learning' branding are visible. A navigation bar includes icons for 'Know It!', 'Read', 'Play', 'Watch', and 'Print & Do'. The main content area features a 'Welcome To Reading' header with a left arrow. Below this, a grid of story cards is shown, including 'Trek and His Friends' (A1), 'Trek Meets Taffy', 'Trek Can Fly', 'Seasons', 'Can Taffy Fly?', and 'Up We Go!'. A vertical sidebar on the right lists 'Level A', 'Level B', 'Level C', and 'Level D'. At the bottom, a 'MORE FUN' section offers additional activities like 'Read', 'See', 'Watch', and 'See' with corresponding icons. A 'Classics' button with a frog icon is located in the bottom right corner.

Read-aloud is available across all functions of the database.

Word-by-word highlighting options are on all books and other features.

Tennessee

[Tennessee in brief](#)

Tennessee <<TEHN uh SEE>> is one of the Southern States of the United States. Kentucky and Virginia are to the north, and North Carolina is to the east. Georgia, Alabama, and Mississippi are to the south, and Arkansas and Missouri are to the west. Tennessee is called the *Volunteer State* because so many military heroes, who volunteered to serve, have come from Tennessee.

Nashville is the capital and second largest city of Tennessee. It lies in north-central Tennessee. Nashville is known for its many fine colleges and universities. It is also a big center for country music. Memphis, Tennessee's largest city, is one of the busiest ports on the Mississippi River.

Created for students in grades K-5 with larger fonts, pronunciations, and simpler, shorter sentences to encourage reluctant readers.

The screenshot displays the World Book Kids website interface. At the top, the logo "WORLD BOOK KIDS" is visible, with "KIDS" in a larger, pink font. To the right of the logo, the text "Welcome Digital Products!" is displayed. The main content area features a search bar with the word "ten" entered. A magnifying glass icon is positioned to the right of the search bar, and the word "Explore" is written in white on a blue background to the right of the magnifying glass. Below the search bar, a dropdown menu lists four suggestions: "Tennis", "Tennessee", "Tennessee Titans", and "Tendulkar, Sachin". Below the search bar, a blue button with the text "Read About : Great Wall of China" is visible. The background of the search bar and dropdown menu is a photograph of the Great Wall of China winding through a misty, mountainous landscape. At the bottom of the page, there is a navigation bar with eight icons and their corresponding labels: "Pictures and Videos" (camera icon), "World of Animals" (animal icons), "Activities" (paint palette icon), "Maps and More" (map icon), "Games" (puzzle pieces icon), "Important People" (magnifying glass over a person icon), "Compare Places" (globe icon), "Science Projects" (flask icon), and "Dictionary" (A-Z book icon). At the very bottom, there is a footer with five icons and their corresponding labels: "World Book Products", "Stay Connected", "Support", "Corporate", and "For Educators". To the right of these icons, there is a copyright notice: "© 2017 World Book, Inc. All rights reserved. WORLD BOOK and the GLOBE DEVICE are registered trademarks or trademarks of World Book, Inc."

Much of Tennessee is farmland. Tennessee farmers raise beef cattle, chickens, dairy cows, hogs, and horses. Corn, cotton, soybeans, and tobacco are among the leading crops.

Many kinds of minerals are found in Tennessee. Coal, limestone, and zinc are among the most valuable.

Women in Science

Throughout history, women have generally had fewer opportunities to succeed in scientific careers than men. Education was often unequal between boys and girls, and many schools and scientific institutions did not even allow women to enroll! Today, women in many parts of the world have a better chance to succeed in scientific careers than did women of the past. How have women overcome challenges to make their mark on the history of science? What important scientific achievements have women made that impact the world today? Let's learn about some notable women scientists of the past and present!

What are Research Skills and Why Do I Need Them?

Research skills are the skills of asking questions and finding answers. Life is full of questions. Most of us spend time each day asking questions and finding the answers to them. How much will a new laptop cost? Where is the closest skate park? Who can fix my flat tire? Some questions are easily answered. But others are more difficult, and you may need help in finding the answers.

Research involves locating and retrieving information—and then working with or communicating that information. You may use the results of your research to help make a decision, or you may communicate your research results to others (for example, turning in a research paper to your teacher or presenting facts about your favorite sports team in your blog). Once you learn where to go or whom to ask to get answers to your questions, you have developed skills that you can use all your life. Research skills are useful in school, in your career, and in many everyday situations. Developing good research skills can help you find information of all kinds more quickly and efficiently.

In the 21st century, information is more plentiful than ever. It's been estimated that a week's worth of *The New York Times* contains more information than a person was likely to come across in a lifetime in the 18th century. We live in an amazing time! Not all the information we encounter in our daily lives is factual, however. We need to be selective of what information we believe and use. That means learning to evaluate
