

As the school year winds down, educators and parents are shifting their focus towards preparing for a summer of reading and continued learning. Let's [Read Beyond the Beaten Path](#) with iREAD and your local library and explore summer camp experiences like the outdoors, animal identification, space camp, and storytelling activities.

In this month's World Book Wired, we're brimming with fun ideas, captivating book titles, and interactive games to help kids have the time of their lives this summer.

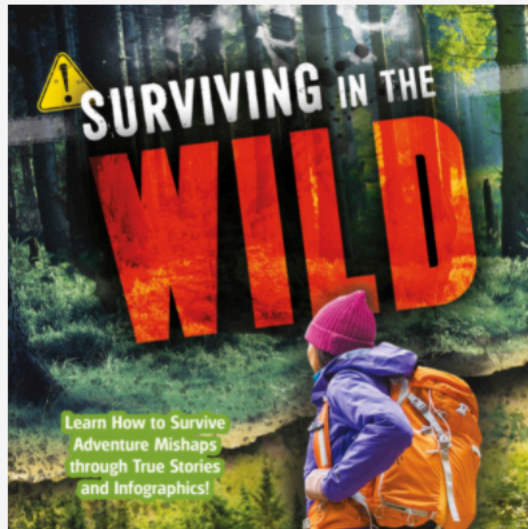

## READ BEYOND THE BEATEN PATH

### I SPY ANIMALS

Bee or Wasp? Butterfly or Moth? Readers will learn to distinguish common animals while learning about their appearances, habitats, and behaviors with our fun, interactive [Spot the Differences](#) series!

### WILDERNESS SURVIVAL

When faced with nature's life-and-death circumstances, how would you respond? [Survival Stories](#) recounts true stories of people overcoming adversity and surviving against the odds.

### SPACE CAMP

Launch the next generation of space explorers into a universe of NASA-based science and engineering by exploring our [Out of This World](#) and [Our Solar System](#) book series.

Beat the Summer Slide! Camp at the library can encompass many different adventures. Prevent summer learning loss by engaging kids in summertime reading, games, videos, crafts, and hands-on activities with World Book.

Plus, with the Insiders program, you'll receive recognition and perks. [Apply today!](#)

### THANK YOU, TEACHERS!

The first week of May kicks off [#TeacherAppreciationWeek](#). Teachers have uplifted students this past year with their unwavering dedication and passion. We appreciate teachers year-round, but we love to dedicate a special week to recognizing all they do. Take a moment to feel the sun, smell the flowers, and pat yourself on the back for your hard work! 🍎
