WIZARD STUDENT

THE EDTECH AWARDS
COOL TOOL WINNER 2021
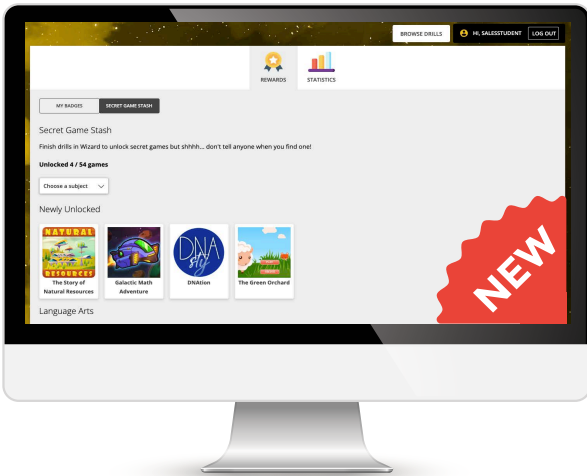

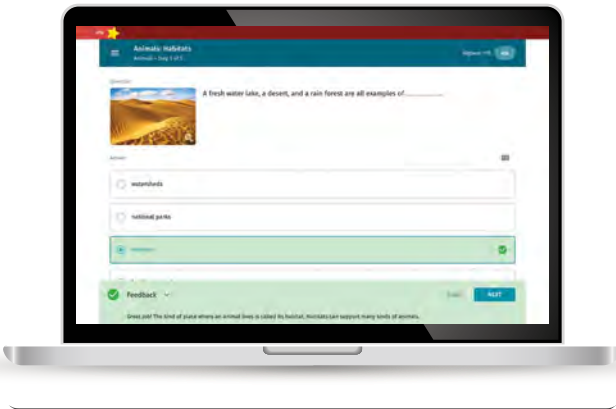

Based on the award-winning *Wizard, Wizard Student* fosters independence as students choose their own path based on their needs. This product is an ideal school or home resource that can be used for enrichment, intervention or some extra practice. This solution contains the same content and utilizes the same adaptive platform as *Wizard*, but excludes the educator tools that are available only in *Wizard*. Student benefits include:

Learn - Through the feedback students receive with every question, they learn from the correct and incorrect answers.

Reinforce - The algorithm adapts the learning sequence and frequency to suit individual needs and to help maintain proficiency levels.

Retain - *Wizard* creates a continuous learning process that truly anchors knowledge and competencies for the long term.

Prevent important knowledge from fading. **Learn 40% faster and 10% more effectively** than with traditional teaching methods!*

A statistics dashboard allows students to monitor their own progress.

Technology monitors and can even predict students' current and future proficiency levels.

The algorithm adapts the learning sequence (based on previous responses) to suit individual needs.

*According to research conducted at Utrecht University
