

DISCOVER

- A redesigned, differentiated database for struggling learners that includes an abundance of new features
- Toggle between two reading levels for each encyclopedia article
- Built-in tools for accommodation make content accessible to a variety of learning styles

Full integration with World eBooks (must be a subscriber)

“Did You Know?” and “Today in History”

Did you know a cockroach can live for as long as a month without its head? Inquisitive kids will love these fun facts and stats about animals, space, the human body, and more. Designed to spark inquiry, these new home page features change daily to really get you thinking.

Research Tools

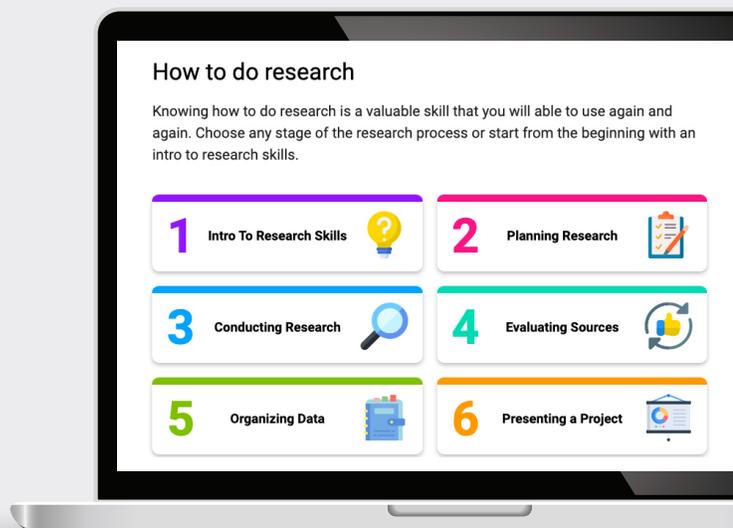

“My Research” allows users to digitally organize a variety of sources, adding personal notes to reference later. Utilize “How to Do Research” for a step-by-step tutorial to guide users through the research process.

Life Skills

Do you think your students are well-equipped with essential life skills to face the world? Discover’s Life Skills feature shares information on such topics as internet safety, applying for a credit card, and smart consumerism.

Games & Awards

Make learning fun with hundreds of educational games covering a variety of topics. Users can earn awards and compete to beat their own best score!

Utilize a step-by-step tutorial for the research process that includes information on how to find, evaluate, and organize information for a final project.
