

World Book Online is a progressive series of databases that grows alongside students at every stage of their learning journey, from early learners to advanced explorers.

KIDS

Hundreds of fun activities, hands-on science projects, age-appropriate articles, and vibrant images tailored to engage growing learners.

STUDENT

Thousands of continually-updated encyclopedia articles supported with interactive multimedia tools to support and reinforce curricula.

ADVANCED

A wealth of vetted articles supplemented by thousands of original source documents to foster advanced research and critical thinking skills.

World Book Online provides a verified, expertly-written, continually-updated resource that teaches responsible digital citizenship, informs strong research and analytical skills, and supports curriculum by approaching subjects from every angle.

KIDS

Bring learning to life for young readers with the database that encourages exploration and engagement. Features like “World of Animals” and “Compare Places” provide quantitative, well-organized information in a fun and useful format to help users not only learn, but apply their learning. Translation functions and read-aloud capabilities, among others, support the needs of every user and aid in comprehension.

Readable

STUDENT

Easily integrated into classroom curricula, *Student* supports its thousands of articles with visually engaging media and mentally stimulating features. A Biography Center, “Compare Places” and “Behind the Headlines” features, and trivia games create the ultimate mobile research and learning experience. Educator tools include lesson plans, curriculum correlations, WebQuests, and more.

Accessible

Reliable

ADVANCED

Encourage high-level exploration and help students synthesize connections across curricula with *Advanced*. Primary sources and lesson plans available in the database teach responsible research skills. Features like “World Newspapers” encourage learners to become citizens of the world; not only are they equipped with information to learn and grow, they are encouraged to think critically to form their own opinions.
